Imprint Industry Education

CorelDraw for Beginners and Beyond
## Saturday, April 4th, 10:20pm -11:40pm

Description:
Corel is the best tool for Imprint Industry art, so let's walk through exactly how, and why.
From basic drawing options, bitmap tracing, to digital effects, this class is for you.
We will discuss and demonstrate vector art for cutting, laser engraving, color separations / screen printing, digital print,
circles for stones, digitizing for embroidery, and even website development. .. All right inside Corel.
Learn the most efficient and effective steps for imprint businesses.
This class is designed to show daily design and production steps.
Part 1) Getting Comfortable in Corel

What's missing?

Tools & Menus

File   Edit   View   Layout   Object   Effects   Bitmaps   Text   Table   Tools   Window   Help

What's missing?

Property Bar & Selections

At the top

Letter   8.5 "   11.0 "   Units: inches   0.01 "   0.25 "   0.25 "

At the bottom

Color Palettes
>Window >Color Palettes ..>Color <u>Palette</u> Manager

Drawing Options
Get familiar with:
   Pick Tool
   Shape Tool
   Crop / Erase
   Zoom
   Freehand
   Drawing Tools
      Rectangle, Ellipse, Polygon -Star, Shapes, Arrow..

Hey, should we be taking notes?

Part 2) Shortcuts

Dropping your off hand on the keyboard can save you seconds
   (minutes per design / hours per week ...)
Holding down Ctrl and/or Shift   ...Fn? anybody?
Shortcuts are shown on the right side of every Menu Option

Email me if you'd like a shortcuts cheat sheet
   ClayB@CorelTrainer.com

What's missing?

Yea, notes would be good.

Part 3a) Aspects of Editing

Grouping
Breaking
Order
Align and Distribute
Converting to Curves

Object	Effects	Bitmaps	Text	Table	Tools	Window

‖‖‖	Insert Barcode...
